POLICIES

Signing Authority (Finance)

Purpose

To sustain its mission and uphold its designation as a registered charity, the NHCFS is committed to operating with the highest standards of fiscal responsibility, transparency, and accountability. All financial practices must reflect the organization's values of stewardship, equity, and community trust.

Responsibility

- Board Chair
- Operations Manager
- Treasurer

Policy Statement

Signing authority is delegated by the Board of Directors to designated officers and staff, as outlined below:

- Cheques and Electronic Payments: Require two authorized signatures. Authorized signatories include the Board Chair, Treasurer, and Bookkeeper.
- Contracts and Agreements: Must be reviewed and approved by the Board prior to signing. Only the Board Chair may sign on behalf of the organization.
- Grant Applications and Funding Agreements: May be signed by the Board Chair, with prior Board approval or committee recommendation.

Investment

Purpose

To guide the responsible management of surplus funds in a way that supports the Organization's mission: improving food access, reducing waste, and fostering community resilience.

Guiding Principles

- Investments must not conflict with the NHCFS's values (e.g., avoid companies involved in food waste, environmental harm, or unethical labour).
- Prioritize low-risk investments to protect the NHCFS's assets.
- Ensure funds are accessible when needed for operations or emergencies.
- Maintain clear records and report investment activity to the Board and stakeholders.

Risk Management

- Avoid speculative investments.
- Diversify holdings to reduce exposure.
- Ensure compliance with local laws (e.g., Ontario's *Trustee Act*).

Cash Reserve

Purpose

The purpose of this policy is to ensure that NHCFS responsibly manages donated funds, maintains financial stability, and plans for future operational and capital needs. This policy guides the establishment, use, and review of both the operating cash reserve and the capital reserve fund.

Operating Cash Reserve

NHCFS maintains an operating cash reserve to ensure the Organization can consistently purchase sufficient food and supplies to meet client demand. This reserve supports continuity of service during periods of fluctuating food costs, variable donation levels, or unexpected increases in client need.

- NHCFS prepares annual income and expense budgets, recognizing that both revenue and expenditures are influenced by changing client demand and food prices.
- As a guideline for determining an appropriate reserve level, the Board reviews the actual cost of food from the previous fiscal year (ending May 31).
- Food expenditures and reserve adequacy are reviewed by the Board at its annual meeting each June.

Capital Reserve Fund

To plan responsibly for future needs, NHCFS maintains a capital reserve fund dedicated to the replacement of essential equipment, including refrigeration units and computer systems.

- Each year, a portion of any cash surplus may be allocated to the capital reserve fund.
- The Bookkeeper, Treasurer and accountant, in consultation with the Board, review financial results and determine the appropriate annual contribution to the capital reserve.
- Funds in the capital reserve are restricted for capital replacement and may not be used for operating expenses unless authorized by the Board under exceptional circumstances.

Support for the Huron County Food Bank Distribution Centre

NHCFS may direct a portion of its cash reserve to provide support payments to the Huron County Food Bank Distribution Centre (the “Distribution Centre”). This support is essential to sustaining the weekly shipments of free food and supplies that NHCFS relies on to serve low-income families and individuals in its catchment area.

Without the ongoing operations of the Distribution Centre, NHCFS would be unable to meet community food security needs. Support payments, when made, must be approved by the Board and aligned with the Organization’s financial capacity.

Governance and Review

- The Board of Directors is responsible for overseeing adherence to this policy.
- The policy, including reserve levels and capital planning assumptions, will be reviewed annually at the June Board meeting or more frequently if financial conditions warrant.
- Any changes to reserve targets or allocation practices require Board approval.

Conflict of Interest

Purpose

It is in the best interest of the NHCFS to be aware of and properly manage all conflicts of interest and appearances of a conflict of interest. This conflict-of-interest policy is designed to help directors, officers and volunteers of the NHCFS identify situations that present potential conflicts of interest and to provide the NHCFS with a procedure to appropriately manage conflicts in accordance with legal requirements and the goals of accountability and transparency in the NHCFS operations.

Responsibility

Other situations may create the *appearance of a conflict* or present a *duality of interests* in connection with a person who has influence over the activities or finances of the NHCFS. All such circumstances shall be disclosed to the Board, and a decision made as to what course of action the Organization or individuals should take so that the best interests of the NHCFS are not compromised by the personal interests of stakeholders in the organization.

- Individuals may provide input into the foods that best suit their dietary needs, preferences, and cultural traditions.
- No one is required to take items they do not want or cannot use.

PROCEDURES

Annual Board Performance Review Process

Purpose

To ensure the Board of Directors remains effective, accountable, and aligned with the mission of the NHCFS. The review provides a brief, constructive opportunity to reflect on strengths and identify areas for improvement.

Frequency

- Conducted once per year during an in-person Board meeting, typically in the first quarter.

Process

- Board Discussion: The Board participates in a short, guided conversation about overall performance, including meeting effectiveness, governance responsibilities, communication, and teamwork.
- Chair Review: Board Members collectively provide feedback on the Board Chair's leadership and facilitation, led by the Vice-Chair.

Documentation

- Only high-level themes and agreed-upon actions are recorded in the minutes. Individual comments remain confidential.

Follow-Up

- The Board incorporates identified improvements into its annual work plan or training needs.

Personnel Oversight/Supervision

Purpose

To make sure all volunteers handle food safely by providing friendly, ongoing supervision and quick coaching during regular activities.

How Supervision Works

Because the food share is small, supervision is continuous and informal.

A designated lead volunteer or coordinator is always present to:

- Answer questions.
- Give reminders.
- Correct unsafe practices.
- Support new volunteers.

Basic Supervision Steps

Be Present and Observant

- Stay in the main work area where volunteers sort, store, or distribute food.
- Watch for unsafe practices (improper handwashing, cross-contact, unsafe lifting, etc.).
- Step in early with gentle reminders.

Give Clear, Simple Instructions

Use short, direct guidance such as:

- “Please wash your hands before starting.”
- “Let’s keep allergens in this bin.”
- “Store heavy items on the lower shelf.”

Show the correct method if needed.

Support New Volunteers

- Pair new volunteers with an experienced one for their first few shifts.
- Explain the basics:
 - Handwashing
 - Allergen separation
 - Safe storage
 - Cleaning routines
 - Check in regularly to see if they need help.

Correct Issues Immediately

If a volunteer is doing something unsafe:

1. Step in calmly and respectfully.
2. Explain the correct method.
3. Show them if needed.
4. Thank them for adjusting.

Encourage Questions

- Remind volunteers that asking is always better than guessing.
- Create a friendly environment where people feel comfortable speaking up.

Coaching Approach

Use a simple coaching style:

- Positive first: “You’re doing great with sorting.”
- Correction: “Let’s just move the dairy to the lower shelf to keep it safe.”
- Reassurance: “Thanks — that helps keep everything organized.”

Documentation

- Note any major issues in the daily log (e.g., allergen mix-up, unsafe handling).
- Record when new volunteers receive basic training.
- No formal evaluations needed.

Review

- Review this procedure once a year or after any safety incident.

Complaints Resolution

Receiving a Complaint

- Complaints can be made in writing, or by email.
- Anyone (clients, volunteers, donors, or community members) can submit a complaint.

- Staff or volunteers receiving the complaint must listen respectfully and record the details.

Initial Response

- Acknowledge the complaint within 3 business days.
- If possible, resolve the issue immediately and inform the complainant of the outcome.
- If not resolved, escalate to the Board Chair.

Investigation

The Board Chair will:

- Review the complaint.
- Speak with relevant parties.
- Document findings.
- Aim to resolve and respond within 10 business days.

Resolution & Follow-Up

- Provide a clear explanation of the outcome.
- If the complainant is not satisfied, they may escalate to the Board Chair.
- All complaints are logged and reviewed quarterly to improve services.

Confidentiality & Respect

- All complaints are handled confidentially.
- No one will face retaliation for raising a concern.

Safety Plan for Agitated or Violent Clients

Purpose

To ensure the safety of all participants, volunteers, and staff by providing clear steps for responding to agitation, aggression, or violence in a respectful and de-escalating manner.

Prevention and Awareness

- Create a calm, welcoming environment with clear signage and respectful communication.
- Train volunteers to recognize early signs of agitation (e.g., raised voice, pacing, clenched fists).
- Encourage volunteers to stay calm, avoid arguing, and maintain personal space.

Immediate Response Steps

If a client becomes agitated or aggressive:

- Stay calm and non-confrontational
- Use a calm tone and body language.
- Avoid touching the person or making sudden movements.
- De-escalate.
- Listen actively and acknowledge feelings: “I hear that you’re upset.”
- Offer choices or solutions if appropriate: “Would you like to step aside and talk?”
- Maintain safety.
- Keep a safe distance and avoid blocking exits.
- Signal another volunteer discreetly for support if needed.
- Do not engage in arguments.
- If the situation escalates, disengage and prioritize safety.

If Violence Occurs

- Call 911 immediately if there is physical danger to anyone.
- Remove other participants from the area calmly.
- Do not attempt to physically restrain the individual.

After the Incident

- Document the event with time, location, and details.
- Notify the Board Chair and any relevant authorities.
- Offer support to affected volunteers or participants.
- Review the incident to improve future response and prevention.

Ongoing Support

- Provide volunteers with basic de-escalation training.
- Maintain a list of local mental health and crisis support services.
- Encourage a culture of compassion, boundaries, and safety.

Feed Ontario and Huron County Food Bank Distribution Centre Deliveries

The Huron County Food Bank Distribution Centre (the “Distribution Centre”) is a key partner in providing immediate hunger relief. They are an important part of the product supply chain for the NHCFS. They collaborate regularly with the NHCFS to provide the collection and distribution of resources to the NHCFS.

Procedure

- Orders are placed biweekly for dry goods and frozen items, meat, eggs, milk, and produce based on current inventory needs. A list of available items is sent to the Operations Manager who then makes the biweekly order.
- An order form comes weekly for produce, eggs, and milk.
- A monthly statistics form is completed for the Distribution Centre using stats from the link2feed database. The Statistics form is sent to the Operations Manager.

Volunteer Roles

- The Distribution Centre truck delivers every Monday. One week is both produce and dry goods. The next week is produce and other perishable goods as ordered. These weeks alternate continuously through the year.
- The assigned volunteers are to arrive at NHCFS at 9:30am.
- The Operations Manager will inform volunteers if product needs to be picked up at Hortons Dairy.
- Volunteers are to make sure fridges are wiped down with sanitizer ready for receiving product.
- Volunteers are to get garbage ready to put at the curb. The garbage is to be placed in clear plastic bags with a green garbage tag put on it (tags are kept in the desk drawer in the office).
- The volunteers get direction from the Operations Manager of any packaging or stocking that needs to be completed.
- When the Distribution Centre truck arrives, the volunteers help unload eggs, milk, and produce and put in the appropriate fridges. Eggs are to be put in cartons if needed and write the appropriate date on the cartons.
- The volunteers are to leave the milk in bags and place it in the milk fridge.
- The volunteers are to put the produce in the fridge. The potatoes go on the shelf in the back storage room.
- The volunteers unload the dry goods and put them on the appropriate shelves. The front area is to be stocked first. Any excess products are to be stored in the back rooms, in the appropriate locations.
- Volunteers are to put frozen items in the freezer. Boxes are to be unpacked to make distribution more efficient.
- The assigned volunteers are to make sure there are enough boxes available for Wednesday's opening.

- Volunteers will complete any other duties as assigned by the Operations Manager.
- The volunteers turn down the heat to 15 degrees and turn the lights off.
- The volunteers lock the door upon leaving NHCFS.

This plan outlines safe, compliant procedures for the use of racking, shelving, and walk-in refrigeration within the Food Share. It ensures:

- Safety of volunteers and clients.
- Protection of food from contamination.
- Compliance with Ontario's Food Premises Regulation (O. Reg. 493/17) and *Occupational Health and Safety Act* (OHSA).
- Consistent, organized operations in a volunteer-run environment.

Scope

This plan applies to:

- All volunteers, staff, and board members.
- All storage areas, including dry storage, produce areas, and walk-in refrigeration..
- All shelving, racking, carts, and food-handling equipment.

Responsibilities

- Ensure policies comply with Ontario law.
- Provide training and orientation.
- Maintain equipment in safe working order.

Volunteers

- Follow all safety procedures.
- Report hazards or equipment issues immediately.
- Maintain cleanliness and organization.

Safe Use of Racking and Shelving

Installation & Structural Safety

- All shelving must be stable and appropriate for food storage.
- Units must be secured to walls or floors to prevent tipping (OHSA hazard prevention).
- No homemade or damaged shelving may be used.
- Minimum 15 cm (6 inches) clearance from the floor, as required by O. Reg. 493/17 for food storage.

Weight & Load Limits

- Heavy items (canned goods, cases of produce) must be stored:
 - On lower shelves.
 - At a height that reduces lifting strain.
- Volunteers must not climb shelving or use it as a ladder.

Organization & Cleanliness

- Keep aisles clear (minimum 1 metre width recommended).
- Store chemicals separately from food, in accordance with O. Reg. 493/17.

- Rotate stock using FIFO (First In, First Out).
- Remove damaged packaging or spoiled food immediately.

Hazard Prevention

- Report any wobbling, rust, sharp edges, or instability.
- Do not overload shelves.
- Use step stools or ladders safely—never stand on boxes or buckets.

Safe Use of Walk-In Refrigeration

Temperature Control (Regulatory Requirement)

Ontario Food Premises Regulation requires:

- Refrigeration at 4°C or colder
- Freezers at –18°C or colder
- Any temperature deviation must be reported immediately.
- If temperatures exceed safe limits, follow the Food Safety Incident Procedure (discard or evaluate food based on time/temperature exposure).

Cleanliness & Sanitation

- Floors must be kept clean, dry, and free of debris.
- Spills must be cleaned immediately to prevent slips and contamination.
- Shelving inside the walk-in must be non-corrosive and food-safe.
- Conduct a full cleaning at least monthly, or more often if needed.

Safe Entry & Exit

- Ensure the door can be opened from the inside (OHSA requirement for confined spaces).
- Volunteers must not enter the walk-in alone if they feel unsafe or if the door mechanism is unreliable.
- Keep a clear path to the exit at all times.

Food Storage Practices

- Raw foods must be stored below ready-to-eat foods to prevent cross-contamination.
- Produce must be stored separately from meat or dairy donations.
- All food must be stored in sealed, labelled containers.
- Maintain airflow around items—do not push food directly against walls or fans.

Equipment Safety

Maintenance

- Walk-in refrigeration must be serviced semi-annually by a certified technician.
- Shelving must be inspected quarterly for damage or instability.
- Any unsafe equipment must be tagged “Out of Service” until repaired.

Electrical Safety

- Only authorized volunteers may reset breakers or adjust electrical components.
- Extension cords must not be used with refrigeration equipment.

Volunteer Training Requirements

All volunteers must receive training on:

- Proper food storage and rotation.
- Walk-in refrigeration safety.
- Emergency procedures.
- Reporting hazards or equipment failures.

Emergency Procedures

Power Failure

- Keep walk-in doors closed.
- Record the time of outage.
- Follow food safety guidelines for time-temperature exposure.

Fire Safety

- Keep fire extinguishers accessible and inspected.
- Do not block exits or electrical panels.

Walk-In Entrapment

- Ensure interior release mechanism is functioning.
- If a volunteer becomes trapped, others must call for assistance immediately.

Review Cycle

This plan must be reviewed annually or after any incident, equipment change, or regulatory update.

Allergen Control

Purpose
